April 17, 2017

**AIM Group completes largest investment to date.**

**Auburn, AL** –Angel Investor Management Group (AIM Group) joined with Fidelis Capital and Bonaventure Capital to complete an \$8.9mm equity purchase in Deep Fiber Solutions out of Atlanta, GA. Leading the round with \$6.4mm, this represents AIM Group’s largest investment to date. “We were immediately blown away by the technology. Having been involved in constructing some of the early fiber optic networks in the 1980’s, I fully appreciated the elegant solution that the Deep Fiber team created to enable old coaxial networks to be upgraded to fiber optic networks without all of the hassles of trenching and boring,” says Jim Corman, Managing Partner of AIM Group. The funding will allow Deep Fiber Solutions to continue their impressive growth in delivering innovative solutions to the cable industry.

**About Deep Fiber Solutions**

Deep Fiber Solutions is an Atlanta based cable engineering and construction company that has patented technology that allows the company to eject the core of a coaxial cable and install a fiber optic cable into the conduit created by the core’s removal. This solution comes at a substantially lower cost than traditional boring and trenching and is completed in a fraction of the time. “This transaction will provide Deep Fiber Solutions with the expansion capital necessary to address the market demand for our unique core ejection/fiber optic installation service. Additionally, we are excited to have AIM Group, Fidelis and Bonaventure Fund as partners moving forward,” says Mark Davis, the CEO of Deep Fiber Solutions.

**About AIM Group**

AIM Group is an Alabama-based equity funding source focused on providing capital to exciting early stage and expansion stage technology companies. AIM Group has completed almost 50 funding transactions since 2011 and has invested in 28 companies. The investment amounts have ranged from \$500k to \$6.4mm per round. The investment in Deep Fiber Solutions reflects a maturation of the investment strategy implemented by AIM Group managing partners Clay and Jim Corman. “Given our significant growth in membership over the last few years, we decided to bring more investment opportunities of later stage companies to our membership. With their collective investment of \$6.4 million in Deep Fiber Solutions, our membership has shown the desire and ability to invest in more mature expansion stage opportunities. We plan to continue funding innovative early stage companies

on a consistent basis and mix in several expansion stage companies a few times a year,” says Jim Corman.

AIM Group has 265 active investing members with locations in Birmingham, Nashville, Huntsville, Pensacola, Mobile, Montgomery, Auburn and Dothan. You can learn more by visiting [www.aimgr.com](http://www.aimgr.com).
